# RECYCLE BATTERIES!

Waste Management, the City of Rolling Hills Estates, and Rancho Vista Elementary School are sponsoring a battery recycling contest! All you have to do is collect batteries from home, your neighbors and friends, tape both ends, and drop them in your classroom's bucket. The class that collects the most batteries will win a great prize!

Only household batteries can be dropped in the buckets. Buckets with the wrong types of batteries will not be counted, so make sure you only bring in:

- AA
- AAA
- D Cell
- Lantern
- 9 volt or less Alkaline
- C cell
- Nickel Cadmium
- Nickel Metal Hydride

**For your safety, both battery terminals must be taped! Batteries without tape will not be accepted.**
